

Backgrounder

British furniture designer, GillmoreSPACE was founded by Charles Gillmore in 2001 with the objective being to create a furniture brand that was exclusive in terms of quality and design but inclusive in terms of price.

Combining contemporary cool with functionality is at the heart of GillmoreSPACE. The creative and skilled design team led by Charles Gillmore provides furniture design solutions for beds, mirrors, storage, tables and seating.

The award winning collection consists of imaginative, unique pieces, designed in the UK using a variety of contrasting materials and finishes such as walnut, brushed steel, glass, high gloss lacquer and leather.

Committed to the highest levels of customer service, Gillmore SPACE recognises the vital importance of product price and efficient delivery, and over the past decade it has established a strong reputation as a leading supplier to the interior design and furniture retail industry. GillmoreSPACE designs are the choice of discerning consumers and trade professionals alike to furnish show homes, high-end investment properties, boutique hotels and TV productions.

With the launch of the new website, GillmoreSPACE has emerged from its wholesale roots to present its designs to a wider national and international audience. This is the first time that GillmoreSPACE's iconic designs are available to customers online at www.gillmorespace.com.
